Account Creation

Note: This is a simple account creation page for people who wish to make their server public. Additionally, you may view basic information and statistics about your server, such as accounts created, online player count, and uptime.

Make sure that MySQL is running before trying to create an account. Accounts created through the web page are normal ones and do not have gm privileges.

Use completely new Username and Password!

HOW TO COMPILE THE ELYSIUM CORE ON WINDOWS

1. Start the MySQL database
2. Change the realm IP to make it public:
Screenshots: [HeidiSQL](#) | [Batch File \(Optional\)](#) ← CLICK
3. Start the login server (realm3d.exe)
4. Start the world server (mangosd.exe)
5. Edit the content of the file `realm1st.conf` to:

```
set_realm1st 127.0.0.1
```
6. Play!
